# INDEX 2008

## SUBJECT AND AUTHOR LISTINGS FOR THE PAST YEAR

**14–19 education**, Science Diploma, 34C, 130C, 138L, 164C

**A**

**A-level chemistry**, 5C, 11L, 88, 192
**Algebra**, teaching of, 92
**Alkaloids**, frog-derived poisons, 144
**Aluminium–bromine reaction**, demonstration, 170
**Americium**, properties and uses, 140
**Analytical chemistry**, 56, 108, 147
**Anecdotes**, 168C
**Anti-anxiety drugs**, 148
**Antibiotics**, 141
**Antidepressants**, 101C
**Antifreeze**, soundbite, 71C
**Antimony**, properties and uses, 120
**Anti-obesity drugs**, 40C
**Argon**, properties and uses, 13
**Assessment**, multiple-choice questions, 117, 169L
**Atmospheric chemistry**, 17
**Atropane**, poison, 16

**B**

**Batrachotoxin**, frog-derived poison, 146
**Becquerel**, Antoine-Henri, 175
**Biosensors**, 22
**Bologna Process**, 3C, 98, 99C, 100C, 160
**Book reviews**
Alcohol, undergraduate, 159
Aspirin, general, 127
Chemistry, AS/A-level, 95, 159
Chemistry, general, 30, 158, 190
Demonstrations, general, 158
Forensic science, 30
History of chemistry, general, 63
Maths for chemists, undergraduate, 127
Medicinal chemistry, general, 95
Natural product chemistry, undergraduate, 190
Organic chemistry, undergraduate, 31
Science education, teaching, 31, 95
Science, general, 159
Science, school, 62, 63
Thermodynamics, general, 62
**Bromine**, properties and uses, 75, 105L, 170
***Building schools for the future* project**, 32, 138L

**C**

**Cambridge Pre-U qualification**, 88
**Carbon-13 nmr**, 111, 154
**Carbon dioxide**, supercritical fluid, 76, 172
**Chemical kinetics**, teaching of, 84
***Chemistry for our future***, 2C, 3C, 36C, 70C, 71C, 72C, 98C, 99C, 100C, 132C, 134C, 136C, 163C
**Chemistry Network**, teaching gifted and talented students, 167C
**Chemistry Olympiad**, 6C, 135C
**Chemistry trails**, 6C, 11L, 68C, 105L, 73L, 134C
**Chemlingo**, 37C , 103C, 105L, 166C
**Copper sulfide formation**, demonstration, 43
**Continuing professional development**, 67C, 103C
**COSY nmr**, 153
**Curriculum development**, 117, 128, 160

**D**

**Daniell cell**, chemistry of, 49
**Did you know?**, anecdotes, 168C
**Dipyridones**, antibiotics, 142
***Discover chemistry***, RSC–Pfizer partnership, 101C
**Displacement reactions**, demonstration, 139, 169L
**Disposable batteries**, chemistry of, 48
**Distillates**, chemical education, 29, 94, 157
**Distillates**, research, 60, 125, 188
**DNA aptamers**, biosensors, 22
**DNA**, gene therapy, 115

**E**

**Ehrlich**, Paul, 80
**E-learning**, 102C, 122
**Electrolysis**, 48
**Electronic voting systems**, 42L
**Elliott**, Leila, RSC Schools Education award winner, 132C
**Environmental chemistry**, 17, 61, 188
**Enzymes**, organic reaction catalysts, 24
**Epibatidine**, frog-derived poison, 146
**Epichlorohydrin**, biomass-derived chemical, 79
**EPSRC**, research funding, 162C
**Ertl**, Gerhard, chemistry Nobel prize-winner, 4C
**Ethylene glycol**, soundbite, 71C
**Eurobachelor degree**, 160
**European Credit Transfer System**, 3C, 98C
**European Higher Education Area**, 3C, 98C
**Exhibition chemistry**, demonstrations, 12, 43, 74, 106, 139, 170
**Extremophiles**, soundbite, 39C

**F**

**Fluorine-19 nmr**, 111

**G**

**GCSE chemistry**, triple science, 128
**GCSE Science**, multiple-choice tests, 117
**Gene therapy**, 115
**George III**, porphyria diagnosis, 45
**George**, Chris, RSC Schools Education award winner, 132C
**Gold**, properties and uses, 171
**Good laboratory practice**, 56
**Graduate employability**, 136C
**Green chemistry**, 76, 172
**Greenhouse effect**, 18
**Greenhouse gases**, properties of, 18
**Guncotton**, demonstration, 12

**H**

**Haloperoxidases**, catalysts, 24
**HE chemistry**, good laboratory practice, 56
**HE chemistry**, good practice report, 137C
**HE chemistry**, maths provision, 2C
**HE research**, funding of, 38C, 162C
**HEFCE**, *Chemistry for our future*, 2C, 3C, 36C, 70C, 71C, 72C, 98C, 99C, 100C, 132C, 134C, 136C, 163C
**HEFCE**, ELQ funding, 38C, 136C
**HEFCE**, research funding framework, 38C
**History of chemistry**, anti-anxiety drugs, 148
**History of chemistry**, cancer chemotherapy, 80
**History of chemistry**, dyestuffs, 45
**History of chemistry**, industrial sites, 11L, 73L
**Hisory of chemistry**, radioactivity, 175
**HIV/Aids**, treatment of, 114
**How science works**, A-level chemistry, 11L, 192
**Hydrogen cyanide**, demonstration, 106
**Hydrometer**, 37C, 105L
**Hyoscine**, poison, 14

**I**

**ICT**, use in teaching science, 29
**Indigo blue**, porphyria diagnosis, 45
**INEOS**, Chemistry Olympiad, 6C
**Infochem**
Anti-ageing creams, no 109
Artificial photosynthesis, no 111
Atmospheric chemistry, no 112
Biodiesel, production of, no 108
Carbon nanotubes, no 108
Food chemistry, flavonoids, no 110
Lithium hydride, discovery of, no 113
Ozone, no 112
Pentapeptides, no 109
Polymers, polyvinyl alcohol, no 110
Renewable energy, no 108, no 109, no 111
Superglue, discovery of, no 108
Sustainability, no 110
Synchrotron radiation, no 113
Vitamin A, anti-ageing agent, no 109
Wonderland, recycling plastics exhibition, no 110
X-ray crystallography, no 113

**K**

**Key Stage 3 science**, programme of study, 73L
**Key Stage 4 science**, triple science, 128

**L**

**Lactones**, soundbite, 133C
**Leukaemia**, treatment of, 80
**Librium**, 148

**M**

**Magnesium**, properties and uses, 107
**Magnetic resonance imaging**, 182
**Materials science**, 126
**Maths for chemists**, 92, 186
**Maths skills**, 2C
**Medicinal chemistry**, 113, 148
**Medicinal compounds**, 40C, 69C
**Methylene blue**, soundbite, 165C
**Metronidazole**, antibacterial, 69C
**Molecular recognition**, biosensors, 22
**Mustard gas**, chemotherapy, 81

**N**

**Nanoscience**, teaching of, 53
**Nanotechnology**, medical applications, 113
**National Science Learning Centre**, 67C
**Natural product chemistry**, 14, 24, 125, 144
**Nitrated carbon compounds**, demonstration, 12
**Nitrogen mustards**, anticancer agents, 82
**NMR spectroscopy**, development and applications of, 108, 152, 182
**Nobel prize**, 2007, 4C
**Nuclear fusion**, Project Zeta, 96

**O**

**Ofqual**, 37C
**Orlistat**, anti-obesity drug, 40C
**Outreach**, 36C, 70C, 100C, 101C, 179

**P**

**Pfizer**, *Discover chemistry* outreach project, 101C
**Photochromism**, kinetics and spectroscopy of, 84
**Pilicides**, antibiotics, 141
**Plant waxes**, extraction of, 76
**Poisons**, 121, 144
**Polylactic acid**, biodegradable polymer, 79
**Post-16 chemistry**, 88
**Practical work**, 32, 42L, 105L
**Project Enthuse**, CPD, 67C
**Project Faraday**, laboratory design, 32
**Proteins**, analysis of, 155
**Proteins**, role in bacterial infection, 141
**Proton nmr**, 108, 153, 182
**Prozac**, soundbite, 101C

**Q**

**QAA**, 3C 99C
**QCA**, 37C, 66C, 119, 128
**Qualifications Credit Framework**, 160
**Quantum mechanics**, teaching of, 53

**R**

**Radiochemistry**, 175
**REACH**, regulations for the control of chemicals, 35C
**Reactivity of aluminium**, demonstration, 74
**Reactivity series**, demonstration, 139, 169L
**Rearranging equations**, teaching of, 186
**Rechargeable batteries**, chemistry of, 49
***Relative difficulty of examinations in different subjects***, Durham University CEM Centre study, 66C
**Relativistic effect**, 42L
**Renewable energy**, 126
**Renewable fuels**, 61, 133C
**RSC**, Bill Bryson Prize, 38C, 131C
**RSC**, *Chemistry for non-specialists*, 103C
**RSC**, *Chemistry for our future*, 2C, 3C, 36C, 70C, 71C, 72C, 98C, 99C, 100C, 132C, 134C, 163C
**RSC**, Chemistry Olympiad, 6C, 135C
**RSC**, Chemistry Week, 8C
**RSC**, *Chemistry: the next generation*, 100C
**RSC**, ChemNet, 8C, 10C, 67C, 101C, 137C
**RSC**, *Discover chemistry* outreach project, 101C
**RSC**, ELQ funding, 38C
**RSC**, HE good practice report, 137C
**RSC**, HE Teaching Award, 102C
**RSC**, *Mastering Bologna*, 98C, 100C
**RSC**, research funding framework, 38C
**RSC**, Schools Education Awards, 132C
**RSC**, Science Diploma, 130C
**RSC**, Top of Bench winners, 99C
**RSC**, *Voice of the future*, 68C
**Rutherford**, Ernest, 175

**S**

**Scanning tunnelling microscopy**, 53
**Schunck**, Edward, dyestuffs chemist, 46
**Science Diploma**, 34C, 130C, 138L, 164C
**Sibutramine**, anti-obesity drug, 40C
**Skills**, graduate employment, 136C, 160
**Software reviews**
Chemistry animations, school, 63
Demonstrations, general, 190
Glass, school, 127
**Soundbite molecules**, 5C, 39C, 71C, 101C, 133C, 165C
**Spectroscopy**, 36C
**STEM subjects**, relative difficulty of, 66C
**Sternbach**, Leo, 149
**Structural determination**, 152
**Supercritical fluids**, solvents, 78, 172
**Surface science**, chemistry Nobel prize 2007, 4C
**Synthetic chemistry**, 113

**T**

**Teaching chemistry**, e-learning, 29, 94, 122, 157
**Teflon**, 168C
**The elements**, 13, 44, 75, 105L, 107, 140, 171
**Tissue engineering**, 114
**Toxicity**, demonstration, 106
**Trifluoromethyl sulfur pentafluoride**, 17
**Tropane alkaloids**, poisons, 14

**U**

**Undergraduate Ambassadors' Scheme**, outreach, 179
**Undergraduate experiment**, synthesis of organhalogens, 24
**Undergraduate investigation**, photochromic dyes, 84
**Undergraduate investigation**, scanning tunnelling microscopy, 63
**Undergraduate investigation**, urine test, 47
**University of Sheffield**, schools' lab, 70C
**Urine**, 37C, 105L
**UV-Vis spectroscopy**, investigating photochromism, 84

**V**

**Valium**, 149
**Van Arkel triangle**, Cambridge Pre-U, 89
**Vanillin**, soundbite, 5C
**Virtual learning environments**, 102C, 122

**W**

**Web watch**, 10C, 41C, 72C, 104C, 137C, 168C
**Wyatt**, Paul, RSC HE Teaching award winner, 102C

**Z**

**Zirconium**, properties and uses, 44

**KEY**
C – Column,
L – Letter to the editor
